

Reading

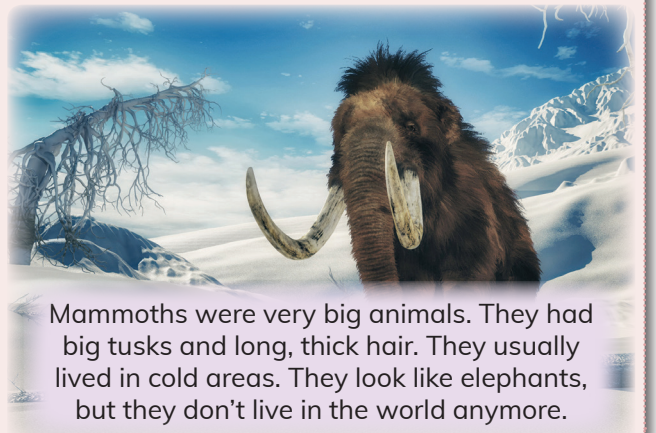

They live in seas and oceans but they aren't fish, they are mammals. They have social groups. They are friendly.

They live on trees and they eat their leaves. Eucalyptus trees are their favourite.

They live in the desert. There isn't much water in the desert, but this isn't a problem for these animals. They don't need lots of water because they have three stomachs. These stomachs hold water. People ride them to travel in the desert.

Mammoths were very big animals. They had big tusks and long, thick hair. They usually lived in cold areas. They look like elephants, but they don't live in the world anymore.

UNIT 4
